

Naval Historical Foundation Continues Library of Congress Partnership for over 60 Years

In the summer of 1949, then-Foundation president Fleet Admiral Ernest J. King signed an agreement with the Librarian of Congress to deposit the Foundation's extensive naval manuscript collection in that esteemed federal repository. That collection, begun at the 1926 creation of the Naval Historical Foundation, now numbers over 300 separate groups of papers covering the full extent of U.S. naval history. Each year, additional personal paper collections are located and transferred, making this an ongoing and dynamic partnership. The NHF collections held by the Library of Congress in its Manuscript Division (see http://www.loc.gov/rr/mss/mss_abt.html) are listed below:
